A Canton Landmark

The McKinley Monument, a landmark in the City of Canton, is the final resting place for the 25th President of the United States, William McKinley. Residents of Canton pass by the Monument and its 108 steps every day. Traveling on Interstate 77, the Monument towers above the trees. But some may wonder: Why is such a magnificent building in Canton? The answer is quite simple. William McKinley was and is Canton's favorite son. While the President was born in Niles, Ohio, he called Canton home. After his death, it was fitting that the President be laid to rest in the city where his career began, the place where he found his true love and ran for the highest office in the land.

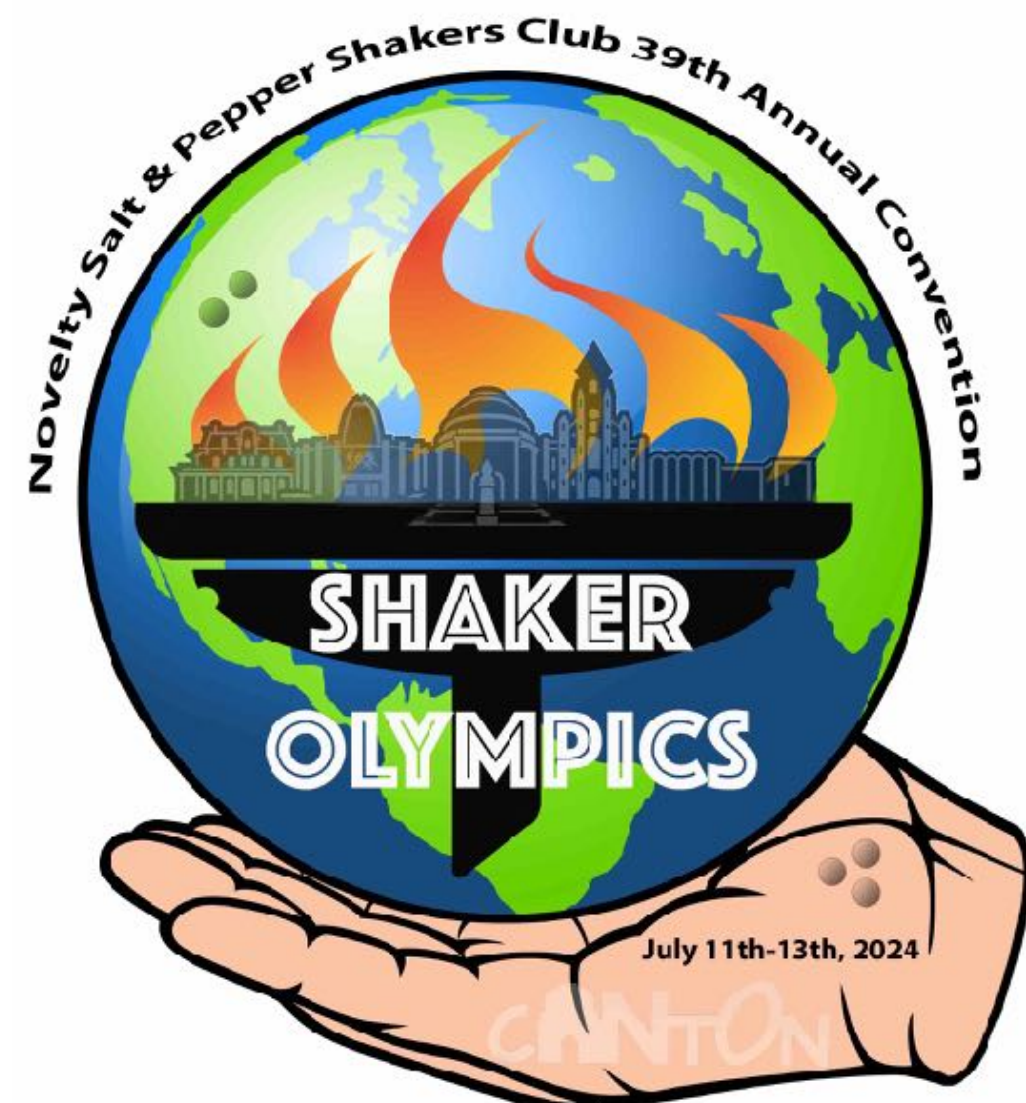

St. Peter Church is a historic church at 720 Cleveland Ave., NW in Canton, Ohio. Founded in 1845, the St. Peter Church served the needs of the German immigrants to our area and was added to the National Register in 1990.

Featured on the cover of “The Guinness Book of World Records” in 1977, this clock stands 23 feet tall and 24 feet wide. It was built in 1972 for a restaurant in nearby Wilmot and moved to Sugarcreek in 2010. It stands at the corner of Main Street and Broadway.

Field of Corn, Dublin

How else to pay tribute to the city's farming history – than with 109 giant concrete ears of corn?

Big Muskie's bucket, Noble County

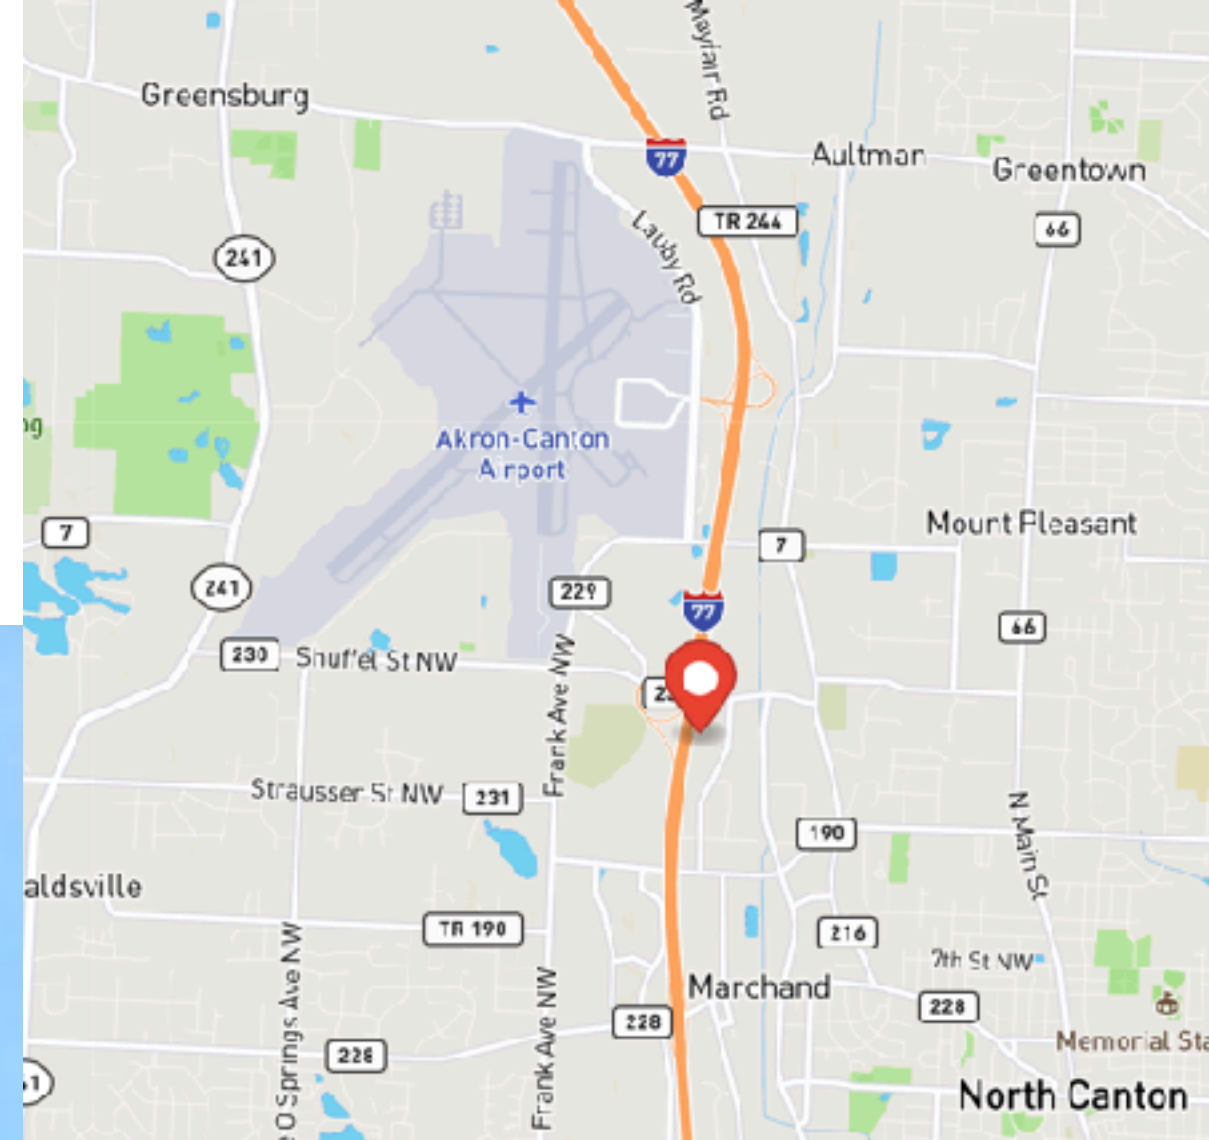

This giant bucket, once part of an even more massive piece of coal-mining equipment, sits amid the rolling hills of Southeast Ohio in a park developed by American Electric Power, which used to mine this land.

Big Muskie, once the world's largest dragline excavator, was destroyed in 1999, part of a plan to clean up the land. The bucket, 23 feet wide by 27 feet long by 23 feet high, was saved and is the centerpiece of Miners' Memorial Park in Noble County on Ohio 78, about 16 miles west of Caldwell.
